

It's Like a CSA...

By purchasing a CSA card, we receive the upfront financial commitment typical of a CSA, but you still get the freedom to choose what you want and when, and there is no commitment to ordering every week. It's like a CSA but more flexible for the customer! You can use your card at the Grafton Farmers Market on Wednesdays or via our online ordering system for Monday on-farm pickups.

Guesstimate the amount you expect to spend on produce this season and choose the amount desired. There are three tiers to choose from below, and cards are reloadable. You will get a bonus added to your card depending on the level you choose in return for your investment of the farm!

Small: \$300, plus bonus \$15 added (5%)

Medium: \$450, plus bonus \$35 added (7.5%)

Large: \$600, plus bonus \$60 added (10%)

Sizes are based on \$15, \$22.50, and \$30 per week over a typical 20 week summer season. Custom amounts can be purchased as well, contact me for details.

The Monday order/pickup and farmers' market checkout will be exactly the same, except that you don't need to bring a form of payment. I will keep your card on a keychain in my cash box and will simply debit your transaction from the card. With each transaction, you will receive an automated email receipt that includes the remaining balance on your card. Questions? Email me at paul@potterhillfarm.com.

Thanks!
Paul Grady
